

DJ EMULATOR

The evolution is here. The world's most advanced DJ performance station. With less than 100 in use worldwide, this is sure to grab attention.

The huge see-through touchscreen can be viewed from both sides. See the "art" of the DJ performance in 3-D. Science fiction of the future is here today.

Custom templates can include your school or corporate logo on the giant see-through touchscreen. This excitement is sure to end up in everyone's "selfie" photos.
