## INDOOR PYROTECHNICS & CONFETTI

FOR THOSE OF YOU WHO REMEMBER MICHAEL JACKSON'S HAIR BEING CAUGHT ON FIRE DURING A PEPSI COMMERCIAL...

A new, safe technology is now available. Cryo-jets actually use liquid CO2 to freeze water vapor in the air and simulate smoke. Bright LED's simulate fire. Will not trigger smoke alarms!

It's fantastic and approved by many major hotel chains. Imagine (safe) fire or custom color smoke shooting up out of your awards stage. A powerful (safe) attention getter. Did we mention it's SAFE!

When it comes to confetti and streamers, we are the experts in deployment and clean up. Streamers are available in many colors to coordinate with your special event.
