## WHAT MAKES A SUCCESSFUL DANCE PARTY?

### NO SUBSITUTE FOR EXPERIENCE

With years of experience, I can tell you that there is more to it than having an ipod with 20,000 songs on it. The key is really knowing the music, every beat, the tempo and genre are important. There is a true art to playing the right song at exactly the right moment and on the beat!

### LATEST DIGITAL TECHNOLOGY

We bring the latest pro digital audio equipment and play the music at just the right volume. Your guests will never experience "listener fatigue" due to poor sound quality or over driven sound, and the party will always be thumping the dance floor.

### THE RIGHT MIX OF FORMAL AND FUN

We provide the best selection of music: upbeat, popular hits and family friendly music that will have you dancing all night. Read the crowd! Every group is different. An experienced entertainer will keep a "Finger on the Pulse," and get it exactly right every time!
